## **Schilling Air Force Base RAB to meet July 27**

SALINA, Kan. – The U.S. Army Corps of Engineers, Kansas City District, will host a restoration advisory board meeting regarding the former Schilling Air Force Base at 7 p.m. this Thursday, July 27, in the Kansas State University-Salina Conference Room, Salina, Kan.

Kansas City District officials plan to discuss vapor intrusion, the pilot study, and provide an update on all Corps efforts. Corps officials will also answer questions from the public.

The RAB is part of the ongoing community involvement efforts by the Corps in conjunction with the remediation of the former defense site.

The Corps is responsible for mediation of groundwater contamination at the site resulting from former Department of Defense use as a World War II bomber training base and a Strategic Air Command Missile Base.

For more information about Thursday's RAB meeting, call the Kansas City District Public Affairs office at (816) 389-3486. [www.nwk.usace.army.mil](http://www.nwk.usace.army.mil)
